SUMMARY

Frontend Developer with hands-on experience building responsive, animated, production-ready web interfaces using React, JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS. Strong foundation in Artificial Intelligence and Machine Learning (B.Tech AIML), bringing analytical problem-solving to UI/UX and frontend architecture. Skilled in translating design concepts into performant, cross-browser compatible code and collaborating on end-to-end web development projects.

WORK EXPERIENCE

Frontend Developer, SysCorp Technology Private Limited

Apr 2026 – Present

Developed and maintained responsive company website sections using HTML5, CSS3, Bootstrap 5, and vanilla JavaScript. Built animated, interactive UI components and implemented reusable frontend modules following clean code practices.

Achievements/Tasks

- Developed and maintained responsive company website sections using HTML5, CSS3, Bootstrap 5, and vanilla JavaScript
- Built animated, interactive UI components including hero sections, scroll-triggered animations, and dynamic timelines to enhance user engagement
- Implemented reusable, self-contained frontend modules following clean code practices for maintainability.

EDUCATION

B.Tech, Artificial Intelligence and Machine Learning

Nov 2021 – Apr 2025

Bannari Amman Institute of Technology
Sathyamangalam

- Final CGPA: 8.39

PROJECTS

Signature Detection System

Aug 2023 – Sep 2023

FrontEnd Design

Developed an SVM-based system to classify and verify genuine vs. forged signatures through image preprocessing and feature extraction. Team of 3.

Tech: Machine Learning, HTML, CSS

Admin Dashboard (React)

Apr 2026 – June 2026

FrontEnd Developer

Built a dark-themed React admin dashboard with sidebar navigation, data visualization charts, and order management tables. Refactored from inline styles into modular, maintainable JSX/CSS architecture.
