ABOUT ME

Frontend Developer with experience in developing, enhancing, and maintaining responsive websites. Skilled in UI development, website structure, content integration, performance optimization, and SEO-friendly design. Experienced in analyzing project requirements, implementing user-friendly interfaces, optimizing website performance, and adapting designs to meet business needs. Passionate about creating visually appealing, responsive, and user-focused web experiences while continuously improving development skills and staying updated with modern web technologies.

WORK EXPERIENCE

Frontend Developer, SysCorp Technology Private Limited **Apr 2026 - Present**

- **Vintours & Travels:** Enhanced the existing single-page website and initiated UI design and structural development for five additional pages.
- **Comfort Aircon Website:** Updated website content, integrated relevant AC product images, and revised partner details to improve website presentation and accuracy.
- **Syscorp Website:** Analyzed the website structure and AI Solutions page to understand content organization, UI requirements, and potential improvements.
- **JFencingProject:** Analyzed project requirements and design references, developed website pages, and implemented UI layouts aligned with the project objectives.
- **ReddyBook:** Revamped the website theme, developed key pages, optimized website performance, and refined content for an improved user experience.
- **Kiosk Project:** Analyzed project requirements, workflows, and core features; designed UI layouts and reviewed API documentation to understand integration requirements.
- **Aviator Games:** Working on SEO-focused website design, content structure, and localization strategies to the Kenyan market.

KEY RESPONSIBILITIES

- Developed and maintained responsive website pages with a focus on UI consistency and user experience.
- Improved website layouts, content presentation, and visual design across multiple projects.
- Optimized website performance and supported SEO-friendly page structures.
- Analyzed project requirements, workflows, and design references before implementation.
- Collaborated on UI planning, content updates, and API integration preparation.
- Adapted website themes and content to meet project-specific requirements and target audiences.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, Tailwind CSS
- **Programming Languages:** Python (Intermediate), C/C++ (Intermediate), Java (Basic)
- **Machine Learning:** Supervised Learning, Model Development, Data Preprocessing
- **Web Development:** Responsive Web Design, UI Development, Website Optimization, SEO-Friendly Design
- **Other Skills:** API Documentation Analysis, Website Structure Planning, UI/UX Implementation

EDUCATION

B.Tech, Artificial Intelligence and Machine Learning **Nov 2021 - Apr 2025**

- B.Tech. in Artificial Intelligence and Machine Learning
- Bannari Amman Institute of Technology, Sathyamangalam
- CGPA: 8.39/10

ACHIEVEMENTS

Patents

- Power Sensor with Mobile Charger — Patent issued on October 18, 2022.
- Fire Detection Using Machine Learning and Sensors — Patent issued on August 26, 2022.

Competition

- Secured Third Prize in a Project Presentation Competition organized by the IEEE Student Branch at Kongu Engineering College, April 2022.

Paper Presentations

- Breast Cancer Prediction Using Machine Learning Algorithms — Presented at Emerging Trends in Engineering Design and Manufacturing (ETEDM-22)
- IoT-Based Garbage Monitoring System — Presented at Recent Trends in Electrical, Electronics, and Computer Engineering for Sustainable Development (RTEEC ’22).
- Online Recommendation System — Presented at the Second International Conference on Multidisciplinary Research and Innovation (ICMRI-2021).

CERTIFICATIONS

- Responsive Web Design Certification — Completed an online certification offered by freeCodeCamp.
- Introduction to Front-End Development — Completed an online course offered by Simplilearn.
- Supervised Machine Learning — Completed a four-week online course offered through Coursera, February 2023.
